

SLOW DEATH BY CYANIDE SUGGESTED

By Expert Witness Testifying in Smith Murder Case Today.

JAMES WITHROW
REPUTABLE CHEMIST
Has Given Subject of Poisons Personal and Minute Attention.

Springfield, Ohio, April 25.—At the opening of court in the trial of Dr. Arthur B. Smith, charged with the murder of his wife, Florence Caviller Smith, by poisoning, before allowing the defense to call any witnesses, Judge Hagax addressed the jury. Having seen several taking notes during the state's offering of testimony he ordered these destroyed and warned the jurors to depend on memory and the official record.

The defense has not called any more witnesses since the first list of 23 and expects to conclude offering of testimony in about three days. Among the witnesses are three experts, Dr. James R. Withrow, professor of chemistry, Ohio State university; Dr. E. F. Schilling, pathologist at Grant hospital, Columbus, and O. W. Markworth, chief chemist in the Ohio state dairy and food commissioner's office. These men conducted the neutral examination of the viscera of Florence Caviller Smith. The other witnesses are local physicians and nurses who will testify in behalf of the defense theory of natural death from heart affection.

Professor James R. Withrow was the first witness called by the defense. Stating his qualifications as a chemist and toxicologist on question by Mr. Malone for the defense he described his experience saying he had made especial study for protection as he himself had been poisoned, and to protect his students. The witness then described a number of experiments on guinea pigs with poisons that leave no trace and especially cyanide, the symptoms being somewhat different than those exhibited at the death of Florence Caviller Smith. He said the odor of cyanide was invariably noticeable where used.

The witness said that anyone should notice odor of cyanide when given in a cup of cocoa which odor remained on the cup for more than a week. On a number of tests with lethal dose, the cocoa invariably curdled so as to be undrinkable, while it took quite a while for cyanide to dissolve.

Professor Withrow further stated that in a lethal dose the fumes in a solution would be so strong as to cause fainting. He also said that sufficient quantity of hydrocyanic acid to cause death could not be given without causing hypodermic. On cross-examination he said cyanide did not produce death instantly and that any form of cyanide might be found six months after death. He stated that in the neutral examination no poisons had been found, "not even the suspicion of a trace."

He watched the tests made by O. W. Markworth, the neutral expert, then called by the defense. In regard to the conditions found in the viscera of Mrs. Smith, he said he found places in the coronary arteries where the inner wall was thickened four times, that there was degeneration of the myocardium and an abnormal thickness in the walls of the undilated heart. His explanation that the embolizing fluid had been thoroughly distributed in the heart was that there was a stoppage of the vessels existing before death and that this stoppage might disappear by necrosis after death.

As to effects of cyanide poisoning in av form and especially cyanide of potassium, he said pathological examination at any length of time after death would show corrosion of lips and stomach and there would be congestion of other organs.

"Cyanide might disappear," he said, "but the effects would remain as long as the body." In cyanide poisoning he said the undertaker might easily detect the odor which would be emanated.

ENORMOUS PARADE FOR GOOD OF CAUSE PLANNED FOR MAY 3

New York, April 25.—Thirty thousand suffragists all in uniform will march up Fifth avenue eight abreast to the music of thirty bands, a week from tomorrow, according to the organizers of the International Woman's Suffrage parade. If this number turns out, and it is declared that 30,000 promises to do so have been received, it will be the largest demonstration of the kind New York has ever seen. Mrs. Richard Coke Burleson as herald, will lead the parade on horseback carrying an American flag. She will be followed by eight other mounted women representing the suffrage organizations of New York and following will be the executive officers of the National Woman's Suffrage association.

BIG HOTEL FIRE IN STEUBENVILLE INCENDIARY WORK

Steubenville, O., April 25.—A man who gives his name as John Burns is under arrest here today, suspected of incendiarism in connection with the burning of the six-story Imperial hotel building last night.

Incendiaries also are suspected of having caused the destruction of 12 ice warehouses belonging to Elias Toom, six blocks away. The police think the fire was started at the same time so as to divide the activities of the fire department.

Two hundred guests in the Imperial hotel were carried to safety down fire escapes. Sensational rescues occurred by the score. Every fireman on the job played the hero.

GEORGE FAVORS IT.

London, April 25.—King George this afternoon gave his hearty approval to the Anglo-American celebration of the centenary of peace between the British empire and the United States. His majesty received at Buckingham palace the British committee and the other delegates of the America tomorrow on board the Caronia.

MILLIONAIRE MILK DEALER

Enlists Aid of New York Police in Search for His Missing Daughter.

STORY OF RETURN TO SANITARIUM

Now Known to Be a Hoax On the Part of Hospital Authorities.

New York, April 25.—A report was current this afternoon that Miss Romona Borden, 17-year-old daughter of Gail Borden, the millionaire milk dealer, who disappeared Wednesday afternoon from a sanitarium at Pompton Plains, N. J., had been found by a detective agency employed by Mr. Borden. This report was not verified, however.

It was said that the private detectives are awaiting the filing of formal charges against the girl's alleged kidnappers before disclosing her whereabouts.

The police authorities refused today to instruct city detectives to join in the search for Miss Borden unless a warrant is issued, either charging a kidnapping or abduction.

New York police department officials began today a systematic search for Romona Borden, the 17-year-old daughter of Gail Borden, millionaire milk dealer. Mr. Borden himself asked the police to take up the case and held a long conference with detectives shortly after midnight. Various but vague are the clues to the young woman's whereabouts. Reported yesterday to have returned to the New Jersey sanitarium where she disappeared Thursday afternoon, it now appears that the statement of her return was one of expediency on the part of the sanitarium authorities and it is understood that neither Mr. Borden nor the family physician nor Mr. Borden's lawyers have the slightest idea where she is.

A girl answering in many ways the description of Miss Borden sailed for New York yesterday on the liner Cincinnati. To clear up this clue a wireless message has been sent to the captain of the vessel.

After conferring with the police Mr. Borden went to his hotel to get a few hours rest before continuing the search. Apparently his efforts here during the early morning were fruitless.

He said he believed his daughter was either in this city or nearby and declared that if necessary, he would hunt for her all over the world.

"Some one will pay dearly for this," said the father. "I know that my daughter is not back at the sanitarium and I am pretty positive that she has not gone abroad."

Mr. Borden added that the initials "M. A. B." on a suit-case in the automobile that took Romona from the Pompton, N. J. sanitarium, revealed the identity of one of the women who aided his daughter's flight. Inquiry at this woman's home in Brooklyn today showed that she went to Atlantic City Wednesday.

Word from Atlantic City said that a girl answering Miss Borden's description left a hotel yesterday afternoon with three women and took a train for New York.

"HOCH DER KAISER!"

Berlin, April 25.—The risk of the rejection by the imperial parliament of an appropriation of \$2,500,000 to build a new yacht for Emperor William is so great that an urgent summons has been sent to all "loyal" deputies to be present in force when the measure comes up for debate.

It is pointed out by the government that only in the event of a full house being assembled can the passage of the appropriation be assured.

Japanese Premier, Radical Leader, and Governor Johnson Chalk Figures In Present Allied Trouble

Trouble between the United States and Japan over the proposed anti-alien land ownership act of California has brought into focus again Count Yamamoto, the premier, Count Okuma who has done much to stir up the trouble, and Governor Hiram W. Johnson of California, late candidate for vice-president of the Progressive ticket, will become important figures in the situation.

HIRAM JOHNSON'S STATEMENT.

Sacramento, Calif., April 25.—A statement by Governor Johnson setting forth his views on the alien land controversy was issued from the executive offices.

Governor Johnson does not attempt to predict that any law will be enacted at this session barring Japanese or the subjects of any other nation, nor if so, what kind of a law it will be, but merely asserts that there is no cause to single out California as the object of such unprecedented action by the authorities at Washington. He says:

"The suggestion of the president that the secretary of state visit California for conferences on the pending land bills was at once accepted by both houses of the legislature and by the governor and he will be glad to welcome Mr. Bryan."

"While the legislature very properly maintained the right of the state to legislate on a matter clearly within its jurisdiction, I am such there is no disposition to encroach on the international function of the federal government, or justly to wound the sensitivities of any nation. My protest has been against the discrimination to which California has been subjected in the assumption that action which has been accepted without demerit, when taken by other states and by the nation, is offensive if even discussed by California."

"I am not predicting the California legislature will take any action on this subject nor, if it does, forecasting the terms of any law which may be enacted. I am merely defending the right of California to consider, and if its legislators deem advisable, to enact a law is certainly within their legal power and its moral right."

"Much has been said of the dignity of Japan. We would not willingly affront the dignity of Japan, nor offend its pride. But what shall be said of the proposition that a great state, itself an empire, of possibilities greater than those of most nations, shall be halted from the mere consideration of an executive act, admittedly within its jurisdiction, by the protest of a foreign power which has itself enacted even more stringent regulations on the subject? What of the dignity of California?"

"Admittedly, California has a right to pass an alien land bill. No one suggests that such a bill should in terms prescribe the Japanese. It has been suggested that such a law in California shall follow the distinctions which are already an unprotected part of the law and policy of the United States."

"The United States has determined who are eligible to citizenship. The nation has solemnly decreed that certain races, among whom are the Japanese, are not eligible to citizenship. The line has been drawn not by California, but by the United States. Discrimination, if it ever occurred, came and went when the nation declared who were and who were not eligible to citizenship. If California continues the line marked out by the federal government, the United States, and not California, should be accused of discrimination."

TAKING NO CHANCES OF ROUSING FRANCE TO RETALIATION

Berlin, April 25.—Owing to the ill-feeling aroused in France recently by the landing of German aircraft at Lunville and Arrazourt, officers of the German active army were notified today by the war office that they are forbidden to participate in future in private flights or competitions involving any possibility of crossing a foreign frontier.

Major Van Abercorn and Lieutenant Voight have been compelled therefore to withdraw from the German elimination contest for the selection of representatives in the rare for the Gordon Bennett balloon trophy which is to be held in France in the fall.

BURNING FRIGATE A THRILLING SIGHT TO CLIFF DWELLERS.

New York, April 25.—The 95-year-old frigate Granite State, the largest wooden vessel ever built for the United States navy which seemed doomed by its breaking out to board her in the Hudson river at midnight was saved from destruction early today but not until serious damage had been done throughout the forepart of the frigate. Cliff dwellers in the hundreds of large apartment houses, skirting the Hudson, watched from their windows and roofs the unromantic spectacle, for with smoke and flames puffing from the port holes for nearly three hours it was a realistic reminder of the naval wars of the civil and Mexican wars in which the Granite State formerly was known as the Alabama and New Hampshire, took part.

The Granite State was built at Kittery, Maine, in 1818, and rebuilt in 1863 after she had been partly destroyed in an engagement in the civil war, but she was soon sent out of commission as the battle between the monitor and Merrimack had demonstrated that wooden ships were obsolete.

DAUGHTER MISSING.

Chicago, April 25.—Dr. W. A. Winters, of New Castle, Ind., planned today to appeal to the federal authorities to join the search for his nine-year-old daughter, Katherine, who has been missing since March 20. She is believed to have been kidnapped.

CHINESE OF CALIFORNIA IN PROTEST

That Proposed Anti-Alien Land Laws Will Work a Hardship

ON THOSE OF RACE WHO WANT TO WORK

Chinese Consolidated Benevolent Association Asks for Justice.

Sacramento, Calif., April 25.—The protest against alien land legislation from the Chinese of California, reached the legislature last night from the Chinese Consolidated Benevolent Association, otherwise known as the Chinese six companies. It is in part as follows:

"The Chinese now in California are here by virtue of treaties that guarantee them the common rights of man, as defined by the bill of rights of our state constitution. We have contented, and desire to promote wide and more abundant trade between this state and China. We have participated in the movement that has caused China to imitate the example of your country by the adoption of a republican form of government. We believe that the reform in our government will increase the consuming and commercial capacity of the Chinese people, and vastly increase their trade with the western nations."

"Your proposed legislation impairs the capacity of our countrymen to earn a living here and to contribute to the commonwealth by their labor and enterprise and we insist that it is unfriendly and inhospitable to the people of the youngest republic in the hands of the greatest republic in the world."

Japan is Pleased

Tokyo, April 25.—Satisfaction is generally expressed here over the decision of President Wilson to send Secretary Bryan to Sacramento to consult with the legislators there on the question of the proposed alien landownership legislation.

The majority of the Japanese newspapers adopt a more tranquil tone today, but the widely circulated Osaka Mainichi, an independent newspaper, is a warlike spirit points to the Japanese fleet as "no toy" and says that if forced to action by discriminatory legislation it is capable of vindicating the national honor.

JOHN COWAN'S PET MEASURE

Will Be Introduced Again in 1915, After Two Successive Defeats.

STERILIZATION OF UNDESIRABLES

Has Had Support of Every One But Members of Ohio Legislature.

Columbus, O., April 25.—House bill number one, in the session of the general assembly which will meet in Columbus in January, 1915, has already been determined.

Representative John Cowan, of Putnam county, said today that he is planning to introduce the first bill in that session and that it will provide for the sterilization of criminals and defectives. The measure is backed by the Ohio State Medical Association and various other public health agencies of the state. Representative Cowan has introduced a similar measure in the last two general assemblies, but it has been defeated each time.

This Suspense is Awful

Columbus, O., April 25.—Before leaving Columbus today on the inspection trip with members of the Ohio flood relief commission, who will visit Delaware, Friday, Fremont and Tiffin, Governor Cox had practically decided upon whom he will name for the several recess appointments which he will send to the senate for confirmation Monday, when the legislature reconvenes to adjourn sine die.

However, the governor refused to announce his selections, which probably will not be known until the list is read in the senate.

SOME THINGS CAN RUN TOO SMOOTHLY FOR GOOD OF PUBLIC

Washington, April 25.—Enforcement of the pure food law hereafter will be solely to see that the provisions of the law are strictly obeyed, while at the same time no attempt will be made to punish manufacturers and importers who can show that they are honestly trying to live up to the spirit of the statute, according to officials of the department of agriculture. Particular attention was called by them today to the fact that everything now was running smoothly between the secretary's office, the solicitor's office, and the bureau of chemistry and that all agencies of the department were working together for the proper application of the law.

IF SOMEONE WOULD ONLY FIND ACTUAL CURE FOR H. C. OF L.

Washington, April 25.—With the declaration that "housekeeping is a profession and must be organized," Mrs. Julian Heath, of New York, president of the National Housewives' league today began the organization of a local branch here.

Co-operative buying, she contended at a meeting of housewives yesterday would solve the high cost of living and at the same time insure better quality of foodstuffs and more honest measures.

Mrs. Heath insisted that the wives needed some organization in which they could learn by the experience of their sisters and educate themselves in the financial end of running the home. She declared that three quarters of the income of the middle classes are nine-tenths of the income of the lower classes.

"And yet," she added, "there has been no effort to make them efficient in the handling of money or the purchase of supplies. When a marriage is contemplated the question is always asked, 'Can the man support her?' but never 'Can the woman spend properly what the man produces?'"

THIS WILL DRIVE PEOPLE TO DRINK SOMETHING ELSE.

New York, April 25.—A strike of about 500 members of the Mineral Water Bottlers' and Drivers' union is threatened today, in an ultimatum sent by union leaders to the employers demanding a 54-hour week, ten legal holidays a year and an increase in pay of \$1 a week. If the demands are not granted the ultimatum states that a strike will be declared on May 1.

TYRUS COBB JOINS TIGERS

Georgia Peach Ends Season of Peevishness This Afternoon.

SIGNS CONTRACT FOR 1913 SEASON.

Figure is Not Given But it is No Doubt a Small Fortune.

Detroit, Mich., April 25.—After a conference with President Navin this afternoon, Tyrus Cobb, center fielder of the Detroit American league baseball club, attached his name to a 1913 contract. The terms were not given out. Application for Cobb's reinstatement was immediately made to the national commission.

The conference between President Navin and Cobb lasted about two hours. Both emerged from the conference room smiling and when they were asked for the contract terms they smiled more broadly but refused to give out any information.

"This is my last hold out," he said as he left Mr. Navin's office. "I'm going to get into my uniform just as soon as possible and begin to practice and I'll be ready to play when they let me."

If the national commission acts on Cobb's reinstatement promptly and does not keep him out of the game any longer, it is expected he will be in shape to play within a week.

TYRUS IS WILLING.

Detroit, Mich., April 25.—Tyrus Cobb, at a local hotel today said he "hoped to" come to terms with President Navin of the Detroit baseball club before tonight. The great outfielder while not inclined to discuss salary differences such as may now exist between himself and employer, indicated that he expected his conference with Mr. Navin this afternoon would at least result in his signing his contract for 1913. It was also possible, according to Cobb that he may attach his name to a document binding himself to the local club for two or three seasons.

Cobb admitted that he does not expect to receive \$1,000 for his services this year. He said he simply made that proposition to Mr. Navin as a basis for negotiations. He added however that he had reasons to believe he would be offered more than the figures which he claims caused him to "hold out."

Cobb appeared a trifle concerned over what action the national commission would take when the matter of his reinstatement is before them. If he signs today and if reinstated immediately, he said he will not be able to get in the game for several days as he has played no ball since early this month.

EXPLOSION DEAD LIST TOTALS 115

According to Those in Touch With Rescue Work at Wrecked Mine.

SHAFT ENTRIES CHOKED BY ROCK

Cutting Off All Possible Chance of Escape for the Entombed Men.

Pittsburgh, Pa., April 25.—Rescue parties, working in the ruined Cincinnati mine of the Pittsburgh Coal Company where an explosion occurred Wednesday afternoon, this morning brought thirty-three additional bodies to the mouth of the shaft. These were placed on a special train and taken to Monongahela City where, like the eighteen recovered yesterday, they were prepared for burial. Ten additional names were added to the missing during the night, and while no official statement of the dead has been given out by the company the loss of life is placed by those at the mine at 115.

As the force from the bureau of mines supplemented by trained miners from the district penetrated farther into the workings during the night they were able to ascertain the extent of the damage. The entries were choked with fallen rock, the drainage system was completely out of commission and no way was apparent in every part of the workings they were able to reach.

The bodies recovered were found buried under the fallen roof, and the opinion was expressed by some of the men that all bodies that will be recovered later will be found under masses of rock. It may therefore take several days before the exact extent of the loss can be determined. The force of workers was increased this morning by volunteers from the district, the air having been advanced to a point where men not supplied with the rescue equipment could be used to advantage. However some parts of the mine are still full of gas and until these are cleared no one can enter.

Identification of bodies proceeded at the temporary morgue in Monongahela City to which all bodies were taken when removed from the workings. Many of them were so mangled that it was feared they never could be identified. Preparation for the care of widows and orphans, made so by the explosions are under way, and for the present they are being looked after by agents of the coal company.

WHATEVER THEY DO WILL NOT CHANGE CONGRESS' ACTION.

Washington, April 25.—Delegates to the American Society of International Law settled down to work today prepared to listen to a sharply contested debate on the question whether the United States was within its rights in fixing arbitrarily the tolls on shipping through the Panama canal.

The session was scheduled to start with a discussion of the history of the canal, delivered by Professor E. D. Wardell, president of Lafayette college. Following him the real "locking of horns" was anticipated. Almost a dozen members of the association were prepared to defend their beliefs to free passage or as to the imposition of a charge on foreign shipping. Rear Admiral Charles Stockton, retired, Lewis Nixon of New York and Professor Eugene Wambaugh of Harvard University were all in addressing themselves to the question "Does the expression 'all nations' in article three of the Hay-Pauncefote treaty include the United States?"

FATE PLAYS TRICK ON YOUNG AND OLD OF SAME FAMILY.

Butte, Cal., April 25.—While members of the family and relatives were grouped about the open coffin of Mrs. J. R. Burney's three-year old son, yesterday, listening to the funeral services, the body moved and presently the child clad in his shroud sat up and gazed about the room. His eyes caught those of his grandmother, Mrs. L. P. Smith, 81. The aged woman stared at the child as if hypnotized. Then she sank in a chair, dead. As she fell the child dropped back into its coffin, from which it was quickly snatched by the mother. Physicians said there was no hope for the boy and death came in a few hours.

Today there were two coffins in the Burney home. Both services were held and the child and its grandmother buried side by side.

Nobody Can Tell If You Darken Gray, Faded Hair With Sage Tea.

Druggist Says When Mixed With Sulphur Prevents Dandruff and Falling Hair.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray, streaked and faded hair beautifully dark and luxuriant. Remove every bit of dandruff, stop scalp itching, and falling hair.

Just a few applications will prove a revelation if your hair is fading, gray or thin, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding

a lot of fuss. Some druggists make their own, but it isn't nearly so nice as Wyeth's.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. Do this tonight and by morning all gray hairs have disappeared, after another application or two it will be restored to its natural color and be even more glossy, soft and luxuriant than ever.

Local druggists say they are selling lots of Wyeth's Sage and Sulphur. It surely helps folks appear years younger. H. F. Vorkamp.

"FIGHTING JACK" ELLER, A BLUECOAT, BUT A CHAMPION HURLER.

Policeman Jack Eller, winner of championship brackets as a hurdler in more than thirty races, is expected to be one of the stars in track athletics this season. He will run as usual under the colors of the Irish-American Athletic Club of New York.

Once when chasing a crook through the streets of the east side of New York, where his beat is, Eller was almost on his prey and about to make the capture when a tendon in his left leg gave way. Instead of giving up the chase, Eller hopped along on his right foot and went fast enough that way to make up the remaining distance and grab his quarry by a flying tackle from behind.

AUTOS TOO SPORTY IN LOOKS AND COST FOR TREVES CLERGY.

Berlin, April 25.—Roman Catholic clergymen are forbidden to either own or ride in automobiles, according to an edict published today in the Rheinisch Prussian Bishopric of Treves.

The head of the diocese declares that the use of automobiles is not consistent with the humility which should adorn the clergy and furthermore automobiling has been the frequent cause of the financial embarrassment of priests. Treves is situated picturesquely on the Moselle river, is probably the oldest town in Germany. It is rich in Roman remains and in many monuments of the early church. It is a Catholic stronghold of about 50,000 inhabitants.

STOPPER PULLED IN GRAMMAR LEAGUE.

Opening of Season Marked by Four Games This Afternoon—Interest High.

Opening at four o'clock this afternoon, four games in the Grammar School baseball league will be played as the season opener. Nine teams are in the league. Interest in the pennant race this year centers between the Lincoln and Lowell schools. Each team has two championships to its credit. The one winning the championship this year will be awarded the G. E. Blum trophy cup first offered in 1908. The games this afternoon will be: Lowell vs. College at City Park grounds; Franklin vs. Irving at Halter street grounds; Lincoln vs. Washington at Solar Refinery grounds; and McKinley vs. Whittier at Edworth grounds.

Nobody Can Tell If You Darken Gray, Faded Hair With Sage Tea.

Druggist Says When Mixed With Sulphur Prevents Dandruff and Falling Hair.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray, streaked and faded hair beautifully dark and luxuriant. Remove every bit of dandruff, stop scalp itching, and falling hair.

Just a few applications will prove a revelation if your hair is fading, gray or thin, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding

a lot of fuss. Some druggists make their own, but it isn't nearly so nice as Wyeth's.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. Do this tonight and by morning all gray hairs have disappeared, after another application or two it will be restored to its natural color and be even more glossy, soft and luxuriant than ever.

Local druggists say they are selling lots of Wyeth's Sage and Sulphur. It surely helps folks appear years younger. H. F. Vorkamp.

GOUX, DARING DRIVER SMASHES RECORD ON BROOKLANDS SAUCER

Indianapolis, Ind., April 25.—and was made when he hung round the Brooklands track, which will be driven in the third annual 500 mile International Sweepstakes Race, May 30, has broken all records for forty-horse power cars from a standing start for ten laps on the Brooklands track. The car was driven by Jules Goux, who will be at the wheel of the same car here next May.

The fact that the car is the one which will be pitted against the pack of the American makes an auto against all comers from abroad makes the performance of the car one of intense interest to motorists. The total time for the ten laps on the big Brooklands saucer was 16:49.0, or an average of 103.23 miles an hour. The best half-mile average was at the astounding pace of 108.56 miles an hour. The best kilo mark was 107.6, while the best mile mark was 106.25.

Goux started out to beat Percy Lambert's record for the hour, but a leak in the gasoline feed pipe caused him to postpone his long trial and make only the ten-lap spin to try and break the record made by the Talbot car.

The car got away from a standing start and was soon picking up speed on the saucer. When around the 100-mile mark the speed caused the shock absorber flew off and caused the break in the gas feed pipe, necessitating the postponement of the hour trial until a later date. The ten-lap record which fell was held by Percy Lambert in a Talbot.

PEACE PLAN
OF BRYAN

Explained in Detail to the
Many Ambassadors
and Ministers.

NO CHANCE FOR WAR
ON SPUR OF MOMENT

Grievances to be Investi-
gated and Time Given
to Cool Off.

Washington, April 25.—Secretary Bryan has laid before the diplomatic corps his plans for an international agreement for peace. Almost every ambassador and minister in Washington was at the secretary's office, calling in response to his invitation and head his explanations of the plan which soon will be the basis of treaty negotiations.

Mr. Bryan later said the outline presented to the diplomats did not go into detail because details are a matter of agreement between the contracting nations and might be different in different cases.

"The statement presented to the diplomatic representatives," said Secretary Bryan, "is only intended to set forth the main proposition, namely that the president desires to enter into an agreement with each nation for the investigation of all questions of every nature, whatever. This agreement is intended to supplement the arbitration treaties now in existence and those that may be made hereafter."

"The agreement proposed by the president is intended to close the gap and leave no dispute that can become a cause for war without investigation. The time within which the report is to be made is left to be agreed upon and it may be that the time will differ in different cases but any time, however, short, furnishes an opportunity for investigation and deliberation and it is hoped that the period provided for investigation and deliberation will be sufficient to secure a settlement without resort to war."

"Each party is to reserve the right to act independently after a report is submitted but it is no likely that a nation will declare war after it had an opportunity to confer during the investigation with the opposing nation."

"But whether the proposed agreement accomplishes as much as is hoped for it, it is at least a step in the direction of universal peace and I am pleased to be the agent through whom the president sends this proposition."

Head the Cough That Hangs On.

The seeds of consumption may be the cause, and a cough that hangs on weakens the system. Foley's Honey and Tar Compound checks the cough, heals the inflamed membranes and strengthens lungs. E. D. GREAT AIR FLEET
FOR THE GERMANS

Will Spend \$12,500,000 Dur-
ing the Next Five Years.

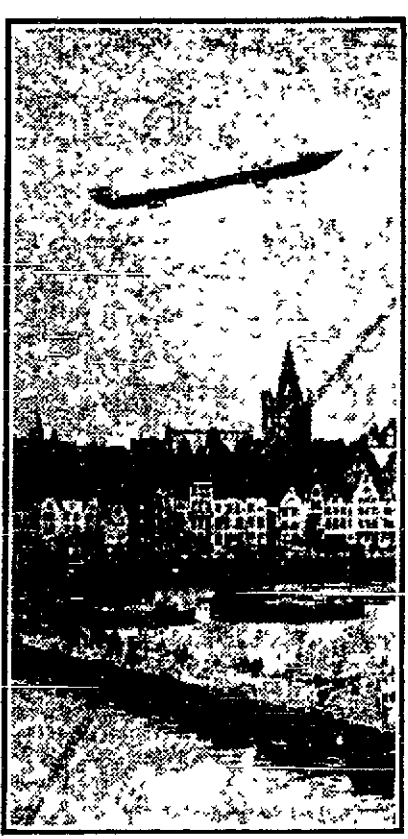

SEPARATE WING OF THE ARMY

\$12,500,000 Will Be Spent on Military
Aviation, and New Fortresses Are
Expected to Cost \$20,000,000—Ten
Dirigibles and Fifty Aeroplanes, With
Crews of 1,402 Men.

Berlin—Germany's plans for a big
aerial navy have been made public.
The fleet of aeroplanes and dirigibles,
which is to be entirely separate from
that connected with the army, on which
nearly \$20,000,000 is to be spent, will
cost \$12,500,000.

A bill appropriating \$750,000 as the
first outlay was introduced in the
reichtag. It calls for ten naval dirig-
ible balloons of the largest size, of
which eight are to compose the active
fleet and two are to be held in reserve.
Fifty-four double revolving balloon
halls, into which the dirigibles will
be able to enter regardless of the weather,
are to be erected and two more to be
kept in reserve.

Fifty aeroplanes, of which thirty-six
are to form the active fleet and four-

GERMAN ARMY DIRIGIBLE FLYING OVER
BERLIN.

teen the reserve, are also to be built, to
be manned by a special corps of 1,402
officers and men.

The appropriations for this fleet to be
spread over the years 1914 to 1918
include \$5,750,000 for dirigibles and
\$2,250,000 for aeroplanes, while \$1,500,
000 is asked for in connection with the
pay and maintenance of the crew.

The life of the new airship is esti-
mated at only four years each.

The sum to be devoted to military
aviation is unexpectedly high, reaching
\$19,750,000, with supplementary esti-
mates of \$5,000,000 to be added later on.
The sum of \$52,000,000 is assigned
for the construction of new fortresses.

After the passage of the army bill the
land forces of Germany on a peace
footing will comprise 39,800 officers,
681,178 privates and 16,000 one year
volunteers. The balance of the total of
\$70,000 will include medical, veterinary
and pay officers, artificers, the hospital
corps and other noncombatants.

The imperial parliament, it is argued
by the newspapers, will undoubtedly
demand radical modifications of the
new tax proposals rejecting some and
demanding the substitution of others
which will weigh more heavily on the
well to do classes.

Dr. Otto Wiemar, the leader of the
Progressives in the reichstag, ex-
presses the opinion that the debate on
the military measures will not be
finished before the summer recess.

Foreigners domiciled in Germany
are to be subjected to the war contri-
butions on the same basis as German
subjects.

TO DIG LONGEST TUNNEL.

Canadian Pacific Will Bore Sixteen
Miles Through Mountain.

Winnipeg.—The Canadian Pacific
railway announced that it will begin
construction shortly of the longest
tunnel in America. The tunnel will
be dug through Kicking Horse pass in
the Rocky mountains, will be sixteen
miles long and will cost \$14,000,000.

It will take seven years, it is esti-
mated, to build it, and it will be four
miles longer than the Simplon tunnel
through the Alps.

In Sleep Breaks Leg Again.
York, Pa.—Dreaming in his bed at
the York hospital of the roadway ac-
cident of a few weeks ago which had
laid him up with a broken leg, William
H. Smelch reached that part of his
dream where the runaway bore down
upon him. Smelch tried to stop it by
his previous experience and leap aside.
He gave an actual leap, which carried
him over the edge of the bed and
broke his leg again at the place of the
first fracture.

TELL IT TO YOUR NEIGHBORS.

women who have found relief
through the use of L. d. E. Pink-
ham's Vegetable Compound, from the
dreadful suffering incident to some
female derangement, tell of it to
your neighbor whom you hear
complain of dreadful backache, bear-
ing down pains, dizziness, head-
aches, irregularities, nervousness
and despondency, and when she
finds relief in nature's remedy for
woman's ills, as thousands of other
women have, she will bless you
for telling her about it.

MONEY TOO EASY.

Cleveland, O., April 25.—Indict-
ments charging embezzlement and
grand larceny have been returned
by the county grand jury against
Peter F. Seals, a \$40-a-month stock
clerk at the Cleveland Furnace com-
pany. The company alleges that he
stole \$20,000 worth of brass from it,
secretly the metal in loads of junk
sold to junk dealers.

In connection with the case
Nathan Komito, a wealthy junk
dealer, was indicted on a charge of
receiving stolen property.
Seals has been living in luxury in
a fashionable apartment for the last
two years, the period of the alleged
embezzlement, and is alleged to have
spent money freely.

TWO IMPORTANT FACTS

to remember about Wild's Parquet
Linoleum. It looks just like
hardwood floors, and wears for
years as the patterns are inlaid. The
colors go through to the back. It is
absolutely sanitary, easily kept
clean and less costly than hardwood.
Ask your dealer. The genuine is
stamped "Wild's Linoleum." 7-6t

FREEDOM FOR WISCONSIN.

Los Angeles, Calif., April 25.—
Orville E. McManis, the confessed
dynamiter and chief witness against
the McNamara brothers, who has
been a prisoner here since April,
1911, will be released within 30
days according to attaches of the
district attorney's office.

McManis, it is understood will
be given his liberty without re-
striction and he will make his way
promptly to some place where he
will be unknown to "start life over
again."

PAYING FOR IT NOW.

New York, April 25.—Selbo O.
Jackson, president of the bankrupt
Jackson-May Company, once said to
be the largest manufacturers of silk
petticoats and kimono in the world,
received a prison sentence of from
three and one-half to seven years to-
day for grand larceny, first degree.
He had pleaded guilty.

After the Jackson-May Company
failed for half a million dollars, last
October, Jackson disappeared. It
was found that he had obtained
large sums from bankers and man-
ufacturers by means of forged
bills of lading. He was arrested in
Frontiera, Mexico.

A SUBWAY GLIDE.

Johnstown, Pa., April 25.—Edna
Newman, aged two years, was
rescued and resuscitated after being
washed through more than 300 feet
of 16-inch culvert pipe, near her
home at Windber today. The child
was playing near a creek and fell
into the water a few feet above
where the creek entered the culvert
under a road. The little body was
drawn into the pipe, and was un-
conscious when recovered by a pedes-
trian.

LOST HIS HEAD.

Stoubenville, O., April 25.—A. O.
Tilton, aged 35, fireman on the
Pennsylvania railroad, was decapitated
this morning when he stuck
his head out of the cab window and
was struck by an east-bound passen-
ger train about 15 miles west of this

Nobody Can Tell If You Darken Gray, Faded Hair With Sage Tea

Druggist Says When Mixed With Sulphur Prevents Dandruff and Falling Hair. Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching, and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding

"FIGHTING JACK" ELLER, A BLUECOAT, BUT A CHAMPION HURDLER.

Policeman Jack Eller winner of championship brackets as a hurdler in more than thirty races, is expected to be one of the stars in track athletics this season. He will run as usual under the colors of the Irish-American Athletic Club of New York.

Once when chasing a crook through the streets of the east side of New York, where his beats, Eller was almost on his prey and about to make the capture when a tendon in his left leg gave way. Instead of giving up the chase, Eller hopped along on his right foot and went fast enough that way to make up the remaining distance and grab his quarry by a flying tackle from behind.

AUTOS TOO SPORTY IN LOOKS AND COST FOR TREVES CLERGY.

Berlin, April 25.—Roman Catholic clergymen are forbidden to either own or ride in automobiles, according to an edict published today in the Rheinisch Prussian Bishopric of Treves. The head of the diocese declares that the use of automobiles is not consistent with the humility which should adorn the clergy and furthermore automobile has been the frequent cause of the financial embarrassment of priests. Treves situated picturesquely on the Moselle river, is probably the oldest town in Germany. It is rich in Roman remains and in many monuments of the early church. It is a Catholic stronghold of about 50,000 inhabitants.

STOPPER PULLED IN GRAMMAR LEAGUE

Opening of Season Marked by Four Games This Afternoon—Inter-lis High. Opening at four o'clock this afternoon, four games in the Grammar School baseball league will be played as the season opener. Nine teams are in the league. Interest in the pennant race this year centers between the Lincoln and Lowell schools. Each team has two championships to its credit. The one winning the championship this year will be awarded the G. E. Blum trophy cup first offered in 1908. The games this afternoon will be: Lowell vs College at City Park grounds. Franklin vs Irving at Halter street grounds; Lincoln vs Washington at Solar Refinery grounds and McKinley vs Whittier at Epworth grounds.

GOUX, DARING DRIVER SMASHES RECORD ON BROOKLANDS SAUCER

Indianapolis, Ind., April 25.—From London comes the exciting news that the Peugeot car, which will be driven in the third annual 500 mile International Sweepstakes Race, May 30, has broken all records for forty-seven power cars from a standing start for ten laps on the Brooklands track. The car was driven by Jules Goux, who will be at the wheel of the same car here next May. The fact that the car is the one which will be pitted against the pick of the American makes and also against all comers from abroad makes the performance of the car one of intense interest to motorists. The total time for the ten laps on the big Brooklands saucer was 16:49, or an average of 103.23 miles an hour. The best half-mile average was at the astonishing pace of 105.58 miles an hour. The best of 105.58 miles an hour. The best mile mark was 107.6, while the best mile mark was 106.29. Goux started out to beat Percy Lambert's record for the hour, but a leak in the gasoline feed pipe caused him to postpone his long trial and make only the ten-lap spin to try and break the record made by the Talbot car. The car got away from a standing start and was soon picking up speed on the saucer. When around the 100-mile mark the speed caused the car to bounce badly and a loosened shock absorber flew off and caused the break in the gas feed pipe, necessitating the postponement of the hour trial until a later date. The ten-lap record which fell was held by Percy Lambert in a Talbot and was made when he lunged for a ten-lap record by 9.31 seconds. The gasoline pipe is 1/2 inch in diameter and the car is a 1912 model. According to the report, Goux is highly pleased with the results of his practice and predicts great things when he gets the big car on a great American track. He is convinced that the car can capture the money and honor of the Indianapolis 500. Goux will give the Peugeot workouts for the next few weeks. He expects to know just what it is able to accomplish before it is taken to this country. It is expected that the Peugeot will be driven in the Indianapolis 500. The famous driver will be the Indianapolis 500. Goux when the car is taken to this country. Just what the car will be able to accomplish on the track remains to be seen. Of course, to obtain a speed greater than 100 miles an hour, it is said, it must be able to maintain a speed of more than 100 miles per hour. The track has been made on the Brooklands saucer. The Brooklands saucer is not a fish track is saucer-shaped and at a great angle, making it a 30 feet high. In his record-breaking trial Goux reached a height of the track than any driver who has raced at Brooklands.

PEACE PLAN OF BRYAN

Explained in Detail to the Many Ambassadors and Ministers.

NO CHANCE FOR WAR ON SPUR OF MOMENT

Grievances to be Investigated and Time Given to Cool Off.

Washington, April 25.—Secretary Bryan has laid before the diplomatic corps his plan for an international agreement for peace. Almost every ambassador and minister in Washington was at the secretary's office, calling in response to his invitation and heard his explanation of the plan which soon will be the basis of treaty negotiations.

Mr. Bryan later said the outline he presented to the diplomats did not go into detail because details are a matter of agreement between the contracting nations and might be different in different cases.

"The statement presented to the diplomatic representatives," said Secretary Bryan, "is only intended to set forth the main proposition, namely that the president desires to enter into an agreement with each nation, for the investigation of all questions of every nature, whatever. This agreement is intended to supplement the arbitration treaties now in existence and those that may be made hereafter."

"The agreement proposed by the president is intended to close the gap and leave no dispute that can become a cause for war without investigation."

"The time within which the report is to be made is left to be agreed upon and it may be that the time will differ in different cases, but any time, however, short, furnishes an opportunity for investigation and deliberation and it is hoped that the period provided for investigation and deliberation will be sufficient to secure a settlement without resort to war."

"Each party is to reserve the right to act independently after a report is submitted but it is no likely that a nation will declare war after it had an opportunity to confer during the investigation with the opposing nation."

"But whether the proposed agreement accomplishes as much as is hoped for it, it is at least a step in the direction of universal peace and I am pleased to be the agent through whom the president sends this proposition."

GREAT AIR FLEET FOR THE GERMANS

Will Spend \$12,500,000 During the Next Five Years.

SEPARATE WING OF THE ARMY

\$25,000,000 Will Be Spent on Military Aviation, and New Fortresses Are Expected to Cost \$25,000,000—Ten Dirigibles and Fifty Aeroplanes, With Crews of 1,400 Men.

Berlin—Germany's plans for a big aerial navy have been made public. The fleet of dirigibles and aeroplanes, which is to be entirely separate from that connected with the army, on which nearly \$25,000,000 is to be spent, will cost \$12,500,000.

A bill appropriating \$750,000 for the first outlay was introduced in the reichstag. It calls for ten naval dirigibles of the largest size, of which eight are to compose the active fleet and two are to be held in reserve. Fifty-four double revolving balloons, into which the dirigibles will be able to enter regardless of the weather, are to be erected and two more to be kept in reserve.

Fifty aeroplanes, of which thirty are to form the active fleet and twenty are to be held in reserve.

There is no case on record of a cough, cold or lagrippe developing into bronchitis, pneumonia or consumption after Foley's Honey and Tar Compound has been taken. The genuine is in a yellow package. Refuse substitutes. Enterprise Drug Store, M. M. Keltner, Prop.

Los Angeles, Calif., April 25.—Orville K. McManigal, the confessed dynamiter and chief witness against the McNamara brothers, who have been a prisoner here since April, 1911, will be released within 30 days according to attaches of the district attorney's office.

McManigal, it is understood will be given his liberty without restriction and he will make his way promptly to some place where he will be unknown to "start life over again."

FATALITY FOR FREMONT.

Fremont, O., April 25.—Eleven-year-old Merline Smith and his brother, 8, sons of William Smith, a farmer living near here, went wading in a small pond. Merline slipped into a sink hole and was drowned. Badly frightened, his brother did not tell his parents for more than an hour and several more hours passed before the body was recovered.

teen the reserve, are also to be built, to be manned by a special corps of 1,400 officers and men.

The appropriations for this fleet to be spread over the years 1914 to 1918 include \$3,750,000 for dirigibles and \$2,250,000 for aeroplanes, while \$1,500,000 is asked for in connection with the pay and maintenance of the crew.

The life of the new airship is estimated at only four years each.

The sum to be devoted to military aviation is unexpectedly high, reaching \$19,750,000, with supplementary estimates of \$5,000,000 to be added later on. The sum of \$22,000,000 is assigned for the construction of new fortresses.

After the passage of the army bill the land forces of Germany on a peace footing will comprise 33,800 officers, 661,776 privates and 15,000 one year volunteers. The balance of the total of 870,000 will include medical, veterinary and pay officers, artificers, the hospital corps and other noncombatants.

The imperial parliament, it is argued by the newspapers, will undoubtedly demand radical modifications of the new tax proposals, rejecting some and demanding the substitution of others which will weigh more heavily on the well to do classes.

Dr. Otto Wiemar, the leader of the Progressives in the reichstag, expresses the opinion that the debate on the military measures will not be finished before the summer recess.

Foreigners domiciled in Germany are to be subjected to the war contributions on the same basis as German subjects.

TO DIG LONGEST TUNNEL.

Canadian Pacific Will Bore Sixteen Miles Through Mountain.

Winnipeg.—The Canadian Pacific railway announced that it will begin construction shortly of the longest tunnel in America. The tunnel will be dug through Kicking Horse pass in the Rocky mountains, will be sixteen miles long and will cost \$14,000,000.

It will take seven years, it is estimated, to build it, and it will be four miles longer than the Simplon tunnel through the Alps.

In Sleep Breaks Leg Again.

York, Pa.—Dreaming in his bed at the York hospital of the runaway accident of a few weeks ago which had laid him up with a broken leg William H. Smelch reached that part of his dream where the runaway bore down upon him. Smelch tried to profit by his previous experience and leap aside. He gave an actual leap, which carried him over the edge of the bed and broke his leg again at the place of the first fracture.

TELL IT TO YOUR NEIGHBORS

If you are one of those fortunate women who have found relief through the use of L. D. E. Pinkham's Vegetable Compound, from the dreadful suffering incident to some female derangement, tell of it to your neighbor whom you hear complain of dreadful backache, bearing down pains, dizziness, headaches, irregularities, nervousness and despondency, and when she finds relief in nature's remedy for woman's ills, as thousands of other women have, she will bless you for telling her about it.

MONEY TOO EASY.

Cleveland, O., April 25.—Indictments charging embezzlement and grand larceny have been returned by the county grand jury against Peter F. Weiss, a \$60-a-month stock clerk at the Cleveland Furnace company. The company alleges that he stole \$20,000 worth of brass from it, secreting the metal in loads of junk sold to junk dealers.

In connection with the case, Nathan Komito, a wealthy junk dealer, was indicted on a charge of receiving stolen property.

Seis has been living in luxury in a fashionable apartment for the last two years, the period of the alleged peculations, and is alleged to have spent money freely.

The appropriations for this fleet to be spread over the years 1914 to 1918 include \$3,750,000 for dirigibles and \$2,250,000 for aeroplanes, while \$1,500,000 is asked for in connection with the pay and maintenance of the crew.

The life of the new airship is estimated at only four years each.

The sum to be devoted to military aviation is unexpectedly high, reaching \$19,750,000, with supplementary estimates of \$5,000,000 to be added later on. The sum of \$22,000,000 is assigned for the construction of new fortresses.

After the passage of the army bill the land forces of Germany on a peace footing will comprise 33,800 officers, 661,776 privates and 15,000 one year volunteers. The balance of the total of 870,000 will include medical, veterinary and pay officers, artificers, the hospital corps and other noncombatants.

The imperial parliament, it is argued by the newspapers, will undoubtedly demand radical modifications of the new tax proposals, rejecting some and demanding the substitution of others which will weigh more heavily on the well to do classes.

Dr. Otto Wiemar, the leader of the Progressives in the reichstag, expresses the opinion that the debate on the military measures will not be finished before the summer recess.

Foreigners domiciled in Germany are to be subjected to the war contributions on the same basis as German subjects.

TO DIG LONGEST TUNNEL.

Canadian Pacific Will Bore Sixteen Miles Through Mountain.

Winnipeg.—The Canadian Pacific railway announced that it will begin construction shortly of the longest tunnel in America. The tunnel will be dug through Kicking Horse pass in the Rocky mountains, will be sixteen miles long and will cost \$14,000,000.

It will take seven years, it is estimated, to build it, and it will be four miles longer than the Simplon tunnel through the Alps.

In Sleep Breaks Leg Again.

York, Pa.—Dreaming in his bed at the York hospital of the runaway accident of a few weeks ago which had laid him up with a broken leg William H. Smelch reached that part of his dream where the runaway bore down upon him. Smelch tried to profit by his previous experience and leap aside. He gave an actual leap, which carried him over the edge of the bed and broke his leg again at the place of the first fracture.

TELL IT TO YOUR NEIGHBORS

If you are one of those fortunate women who have found relief through the use of L. D. E. Pinkham's Vegetable Compound, from the dreadful suffering incident to some female derangement, tell of it to your neighbor whom you hear complain of dreadful backache, bearing down pains, dizziness, headaches, irregularities, nervousness and despondency, and when she finds relief in nature's remedy for woman's ills, as thousands of other women have, she will bless you for telling her about it.

PAYING FOR IT NOW.

New York, April 25.—Sello O. Jackson, president of the bankrupt Jackson-May Company, once said to be the largest manufacturer of silk petticoats and kimonoes in the world, received a prison sentence of from three and one-half to seven years today for grand larceny, first degree. He had pleaded guilty.

After the Jackson-May Company failed for half a million dollars, last October, Jackson disappeared. It was found that he had obtained large sums from bankers and manufacturers by means of forged bills of lading. He was arrested in Frontera, Mexico.

Recommended for a Good Reason.

C. H. Grant, 310 Waverly street, Peoria, Ill., says: "Backache and congested kidneys made me suffer intense pains. Was always tired and floating specks bothered me. Took Foley Kidney Pills and saw big improvement after third day. I kept on until entirely freed of all trouble and suffering. That's why I recommended Foley Kidney Pills. They cured me." A SUBWAY GLIDE.

Johnstown, Pa., April 25.—Edna Newman, aged two years, was rescued and resuscitated after being washed through more than 300 feet of 16-inch culvert pipe, near her home at Windber today. The child was playing near a creek and fell into the water a few feet above where the creek entered the culvert under a road. The little body was drawn into the pipe, and was unconscious when recovered by a pedestrian.

LOST HIS HEAD.

Staubenville, O., April 25.—A. O. Tilton, aged 35, fireman on the Pennsylvania railroad, was decapitated this morning when he stuck his head out of the cab window and was struck by an east-bound passenger train about 15 miles west of this city. He lived near Denison.

THE WEATHER.

Columbus, O., April 25.—Fore-
cast: Cloudy; probably local rains
tonight or Saturday; cooler.

Loss by flood to Ohio farmers is
estimated by the state board of agri-
culture to be \$15,000,000, including
\$1,238,000 from high winds pre-
vious to the flood rains. Damage to
buildings, fences, roads and live
stock is placed at \$7,000,000; soil
washing at \$2,300,000; corn in
stock at \$320,000; drift wood and
debris at \$350,000. Flood damage
to growing wheat is put at 7 per
cent, but the acreage sown is 600,-
000 acres more than in 1913, and it
is predicted the wheat harvest this
year will be 15,000,000 bushels big-
ger than last year's crop.

Although new commissions were
created to carry out promises
made during the campaign, by econ-
omizing wherever it would not in-
terfere with the service and by com-
bining state departments engaged
in kindred activities, the appropri-
ations by the present general as-
sembly for current expenses were
kept down to a figure only \$12,-
715.56 in excess of what was set
aside by the previous body of law
makers.

The appropriations for 1911-12
amounted to \$18,410,697.37, while
those for 1913-14 are \$20,070,-
125.64. To compare properly, there
should be deducted delayed build-
ing appropriations amounting to \$1,-
032,820; the cost of the newspaper
advertising of the constitutional
amendments and the flood and mil-
itary expenses, including liquor tax
refunds, amounting to \$560,000.
The total deductions, therefore, are
\$1,646,721.71, making the appro-
priations for current expenses in
1913-14 just \$18,423,415.93 as
against \$18,410,697 for the previ-
ous two years.

THE LEGISLATION OF 1913.

The distinguishing feature of the
Ohio general assembly of the year
1913 has been the success of the
Cox program, says the Toledo Blade
(Republican). Practically every
measure fathered or O. K'd by the
governor has gone through the leg-
islature—and this in spite of a
house very much enamored of its
own individual legislation and of
the obstructive tactics, threats,
snuffings and sarcasms of the As-
sociation of Past Candidates for
Speaker. It has been hard labor for
the chief state executive, but to
judge by his persistence and his
general atmosphere of good nature,
it has been a genial labor.

There remain a few important
measures to be disposed of before
final adjournment is taken. The
civil service bill will be passed when
the legislature reconvenes on the
28th. The model charter bill, now
in conference, has a chance to go
through as worked out and approved
by the Ohio League of Municipal-
ities. The graduated liquor license
bill is also in conference and will,
in every likelihood, go to the gov-
ernor in the form he endorses.

Whatever may be the judgment
of time as to the right or the prop-
riety of an administration organ-
ized and administration operated
legislature, there can be no question
that this assembly has made an im-
pression upon the state for action,
for acknowledgement of the bind-

ing quality of campaign pledges—
even though in spots reluctant—and
for apparent freedom from sinister
outside pressure and influences.

NATION VS. STATE AS TO JAPANESE.

Under recent administrations,
when Pacific coast states have
threatened to pass laws sure to in-
crease tension between the United
States and Japan, the federal ex-
ecutive officials have used persua-
sive arguments with state executive
law makers to induce either with-
drawal or modification of the leg-
islation that was said to conflict with
treaty pledges. President Wilson
is not inclined to follow this policy.
It favors too much, he thinks, of
federal executive interference with
a state's rights, even its right to er-
ror and to be told so later by the fed-
eral supreme court. With the latter
tribunal and not with the fed-
eral executive it must ultimately set-
tle. The president does not omit to
remark to Californians who consult
him now, that he hopes that Cali-
fornia will not be unmindful of the
treaty obligations of the nation; but
he disclaims authority to influence
the state legislature in its choice and
he trusts to the court to act sum-
marily on petition of aliens who may
feel aggrieved by any action taken
by California.

This method, while it may tem-
porarily increase the risk of misun-
derstanding between the United
States and Japan, insures a decision
by the ultimate court that may have
a decisive effect; and this is much
needed. If the anti-Asiatic move-
ment is to be formally indorsed as
a national policy, the sooner the bet-
ter for all concerned. If the na-
tional foreign policy is forever to be
subjected to dislocation by unpre-
dictable acts of the states, that fact
should be made clear. Often com-
promise is defensible on ethical as
well as practical grounds. Here is
a case where it does not seem to be
workable. Japan has a right to
know, so that she can turn her tide
of emigration, to an ever greater
extent than now, to places where a
welcome awaits and not a ban.

A majority of Americans, we are
convinced, wish the national policy
to be determined by a constituency
as broad as the country is wide, and
to be subjected to no discount as the
result of state interference. Wash-
ington, and not Sacramento, must
say the final word. On the other

hand, this same majority of Ameri-
cans also have no desire to see race
problems increase. Such issues al-
ready are sufficient in number and
in gravity without provoking another
divisive factor in American life
by encouraging multiplication of
Asiatic competitors. — Christian
Science Monitor.

AN ENVYABLE RECORD.

In twelve actual working weeks—
one of the shortest sessions of re-
cord—Ohio has been taken from the
list of conservative states and placed
in the front ranks of the progres-
sive commonwealths of the Union.
The manacles of reaction have been
taken off and the state stands forth
ready for the era of unprece-
dented advancement, which the
enlarged popular powers and
rights assure. In no other state of
the Union has more been done by a
legislative body to secure free and
untrammeled popular expressions on
all governmental questions.

The scope of the departure from
the moss-covered traditions of the
past is so extensive as almost to defy
the ordinary mind, and it will take
time to acquire a complete realiza-
tion of the progressive changes.

During the transformation, the
common wealth was the cynosure of
the people of the nation and political
students in many foreign countries.
Many of the reforms established are
deemed models of their kind; and
this is particularly true of the
workmen's compensation act, which
is considered the most comprehen-
sive act of the kind in existence.

To the democratic party belongs
the credit for these momentous
changes. Of its representatives,
Governor Cox did more than any other
person to create this remarkable
record. He was the mainpring of
the works. He built the necessary
machinery to grind out the laws,
when he participated in the organ-
izing of the general assembly; and
his hand was continually on the
lever during the session to see that
pre-election promises and pledges
were redeemed. The state execu-
tive has demonstrated that a
promise by him will be fulfilled.

But the efforts of the state execu-
tive would have been fruitless had
he not been given the sincere co-
operation of the majority in both
houses. Never was there another
general assembly so responsive to
the popular will; in no other leg-
islative body was the desire to keep
faith with respect to covenants
with the people so apparent. Loom-
ing far above all other remarkable
accomplishments of the eightieth
general assembly is the singular
fact that there was not even a rumor
reflecting upon the honesty and in-
tegrity of a single member during
the session. This circumstance is
especially notable when it is re-
called that never were the needs of
the interests for successful lobbyists
more urgent than during the session
just closed. The work of the mem-
bers of the eightieth general assem-
bly will constitute the brightest
pages in all of Ohio's history.

Yell Defiance at Blood Disorders

A Remedy That Has Shown a Most
Remarkable Purifying
Effect.

At Last You Can Get Rid of Blood
Troubles—S. S. S.

The word medicine is one of the
most abused in our language. There
are certain medicinal properties just
as necessary to health as the food we
eat. Take, for example, the well-
known tonic medicine S. S. S. This
famous blood purifier contains medi-
cinal components just as vital and
essential to healthy blood as the el-
ements of wheat, roast beef, the fats
and the sugars that make up our daily
ration.

As a matter of fact, there is one
ingredient in S. S. S. which serves the
active purpose of stimulating each
cellular part of the body to the healthy
and judicious selection of its own
essential nutriment. That is why it
regenerates the blood supply; why it
has such a tremendous influence in
overcoming eczema, rash, pimples, and
all skin afflictions.

And in regenerating the tissues
S. S. S. has a rapid and positive anti-
dotal effect upon all those irritating
influences that cause rheumatism, sore
throat, weak eyes, falling hair, loss of
weight, thin, pale cheeks, and the
weariness of muscle and nerve that is
generally experienced as spring fever.
Get a bottle of S. S. S. at any drug
store and in a few days you will not
only feel brighter and energetic, but
you will be the picture of new life.
S. S. S. is prepared only in the labora-
tory of The Swift Specific Co., 137
Swift Bldg., Atlanta, Ga., who main-
tain a very scientific Medical Depart-
ment, where all who have any blood
disorder of a stubborn nature may
write freely for advice and a special
book of instruction. S. S. S. is sold
everywhere by drug stores, department
and general stores.

American Girl Refuses to Say if She is a Duchess

Miss Nancy Leishman, daughter of
the American ambassador to Ger-
many, is reported to have wedded
The Duke of Crov, twenty-four years
old, who has just come into the fam-
ily estates in Westphalia. She has
been one of the belles of the Ameri-
can colonies wherever diplomatic
missions have carried her father over
Europe. On March 26 it was an-
nounced the wedding would take
place April 11. The family of the
duke objected. Then Ambassador
Leishman denied the engagement,
later to admit it. Since this, how-
ever, the situation has been sur-
rounded with mystery, and there was
no one to say if the marriage had
taken place or would take place.

old one, in its present dramatized
form it makes a most interesting
performance. Nearly every one of
any age has read the story of "Jane
Eyre," but many of the younger gen-

VETERAN OF THE THROTTLE

Bartley Harper Answered Last Summons This Morning.

LONG A RESIDENT OF COMMUNITY

Funeral Services Will be Held Monday Morning at the Residence.

After an illness that has extended over a period of seven years, Bartley Harper passed away peacefully at 9 o'clock this morning at his home at 405 Harrison avenue. It was seven years ago and two weeks that the trouble began, and since that time he has been ailing. Death resulted directly from heart failure.

The deceased was a retired engineer, and had made his home in Lima for by far the greater part of his life. He was employed by the C. & D. and the L. E. & W. for a time which extended over more than 32 years. He was the son of Mr. and Mrs. William Harper, and was born in Unionville, Ohio, on the 17th of September, 1851.

Surviving to mourn his death are his bereaved wife and two daughters, Mrs. Clarence Reel, and Mrs. Otto Harmon. The funeral services will be held at the late residence at 405 Harrison avenue, at 10 o'clock on Monday morning. The Rev. H. W. Hoyer, pastor of the Epworth M. E. church, will have charge of the services. The interment will be made in the Woodlawn cemetery.

MRS. SARAH TITUS DIED THIS MORNING

Aged Lady Succumbs to Severe Attack of Pneumonia at City Hospital.

Mrs. Sarah Titus, the widow of Adam Titus, died at an early hour this morning at the city hospital after an illness of slightly more than a week of pneumonia. The deceased was well advanced in years, being at the time of death over 70 years of age. This advanced stage of life made the contention with the disease of less interest, and she succumbed at 5:30 this morning.

The deceased was taken to the city hospital one week ago today. Of her life very little is known. Her son Ed Titus died about six years ago. For the past some time she has been making her home with Mr. and Mrs. J. N. Hassan, of 861 east High street, and it was at their home that she was stricken down with pneumonia. No funeral arrangements have been made.

THE IDLER.

Mr. and Mrs. W. O. Sockrider, of 305 Franklin street, are the parents of a daughter, born at their home Thursday morning at nine o'clock. The little one weighed nine pounds.

The first of the week, Dr. E. G. Burton will vacate the residence at 748 west Spring street, which will be used as a parsonage for St. Paul's Lutheran church. Work upon repairs and remodeling will begin at once and it is the hope of Rev. J. W. Richards and family that they will get into their new home by the beginning of the month of June.

Mrs. Anna Foley of Columbus Grove, was brought to Lima this morning on the seven o'clock car and removed to Lima hospital, where she will submit to an operation. Mrs. Foley is a nurse.

Mr. and Mrs. George Glover (Eva Delsel), of Cleveland, are the parents of a daughter, the second girl born into their home. The first child, Katherine Glover, is at the home of the grand-parents, Mr. and Mrs. Henry Delsel, of the Colonade, south Cole street.

EXECUTION OF SENTENCE

Postponed by Court of Appeals in Ralph Hoover Case.

YOUNG PRISONER STAYS IN VAN WERT

Until Arguments For a New Trial Are Made Next Month.

Van Wert, O., April 25.—Young Ralph Hoover, over whose head there hangs a penitentiary sentence for life for the killing of his young wife, Helen Hoover, January 10 of this year, was not taken to Columbus this morning to enter upon his sentence. This was due to the efforts of his attorneys, who yesterday, before the court of appeals at Findlay argued for a stay of execution to the petition in exceptions, filed Thursday morning. The court saw fit to grant this stay of execution and Hoover will remain in the Van Wert jail for some few weeks, at least.

The court announced yesterday that the arguments upon the petition in error would be heard in Lima, at a very early date. Numerous causes are set forth why the court erred.

SOCIAL EVENTS.

Rev. and Mrs. J. W. Richards and their daughter, Miss Dorothy Richards, had the pleasure Thursday noon of enjoying a fresh shad dinner, rather unusual in this part of the country. The treasurer of the church congregation at Lancaster, Pa., where Rev. Mr. Richards was previously located, had secured three of these big fish, direct from the Susquehanna river, and forwarded them to his former pastor in Lima. Each fish weighed about six pounds.

Dr. T. H. Foltz returned home last night from Birmingham, Alabama, where he has been for some weeks.

Herr Hugenberg Admits Giving War Office Men Some Money.

INDIGNANT OVER PUBLICITY GIVEN

Protests Against Uproar and Calls Affair a "Small Matter."

Essen, Germany, April 25.—The indignation of Herr Hugenberg, chairman of the board of directors of Krupp's gun and armament works here has been aroused by the great publicity given to the recent disclosures in connection with the bribery of officials of the German war office by a representative of the Krupp firm in order to obtain information as to pending military contracts. In a conversation with a reporter of the Rhenish Westphalian Gazette at a Krupp organ, Herr Hugenberg said the scale of the alleged bribes given to war office employees and military underlings in Berlin amounted to "several one dollar, two dollar and five dollar bills and in one or two cases a \$25 bill at Christmas."

Director Hugenberg strongly protested against the uproar over what he called a "small matter" and asked whether he or his colleagues was such fools as to risk their reputations and positions for such trifles as the confidential reports in question.

"DARE" NEARLY FATAL.

New York, April 25.—Eighteen-year-old Margaret Donovan was saved from a three hundred-foot fall from the head of the Statue of Liberty today by her chum, Gladys Revere, who caught hold of her dress just as she was slipping from the window ledge that surrounds Miss Liberty's crown. Screaming for help, Miss Revere held on to the dress with both hands until other sightseers came to the rescue and dragged the girl in feet first. Miss Donovan ventured out on the ledge as a dare and became dizzy.

K. T. GREGG & CO.

NEWS OF POLICE COURT

But three lone drunks graced the prisoners bench this morning. James Green MacGregor was the first case called. The charge politely stated, was inebriation.

"MacGregor, you are charged with being drunk" says the mayor, "were you?"

"Yes surr, I wurr" admitted the MacGregor.

"Five and costs" concluded the mayor.

After spending the night in an institution where he was a former official, Wesley Jacobs was called to the stand.

"Guilty, yer honner" admitted Wesley before the charge had been named. Jacobs who was formerly a janitor at the station was also fined \$5 and costs.

"Monday you are five days late and its a dollar for each day" said the mayor in affixing the fine of John Monday, 32. Monday admitted having faced the mayor before.

Disorderly conduct was the charge against Mike Poroto. A \$5 fine placed him on the stone pile.

Trials of Irma Mort, Margaret Wrenn, John Trebolt and John Rogers which were to have been heard before Mayor Shook this afternoon were called off when the principals in the affair made settlement before their cases were called.

Because of his part in exposing the affair, Trebolt was let off with a suspended sentence. Upon their payment of a five dollar fine, the two women arrested in the raid were released. John Rogers who was released on a \$10 bond following his arrest has not since been seen. Mr. and Mrs. George Burns, who are charged with operating a house of ill repute have been bound over to the grand jury.

COURT HOUSE NEWS

Because her husband was of the opinion that it was cheaper to move than to pay rent and consequently because she was forced to move seven times in less than three years is the principal reason given by Mrs. Dolores Hites for asking for divorce from her husband, Roland Earl Hites. Mrs. Hites asks for alimony and restoration of her maiden name of Dolores Barrett.

The wife says that although Hites who is a buffmaker is capable of earning \$30 per week, that he has refused to provide a suitable home for her and that as a result of his short comings caused them to lose their furniture and other necessities. They were married in Lima in December, 1910, and have no children.

The \$10,000 damage case of Charles W. Dingledine against the Ohio Electric railroad company has been dismissed in common pleas court by Judge Klinker.

In another case for a like amount of damages based on the same allegations, Dingledine as administrator of his wife's estate obtained on February 17, of this year, a verdict of \$1,500. The case grew out of the electrocution of Mrs. Dingledine, which occurred in her home near the Shawnee country club. Dingledine alleged the accident happened as a result of the negligence of the company in maintaining its electric lighting system.

Alleging that her husband had failed to provide a suitable home for her and that her husband forced her to associate with undesirable companions, Mrs. Lota Fast this afternoon filed a petition in common pleas court asking divorce from C. V. Fast. The petition states they were married October 10, at Ft. Wayne.

Mrs. Fast further alleges in her petition that her husband has assaulted her upon several occasions and that as a result her health has been impaired. There are no children.

After almost 35 years of married life, Mrs. Johanna O'Neill has filed proceedings asking divorce from her husband, John O'Neill. The petition states they were married July 2, 1879. There are eight children, two of whom are minors. Mrs. O'Neill asks for the custody of the two minor children, such alimony as the court may see fit to grant and further asks that her husband be enjoined from collecting the rentals on property owned by him.

Grand jury for the April term of common pleas court will go into session Monday. About 175 cases which have been brought from the lower courts are under investigation.

MOTORCYCLE VS ELECTRIC

Latter Was the "Grosser" and Demolished the Former.

NEW MACHINE WAS TOTALLY SMASHED.

View of Approach Tracks Shut Off By Corner Building.

L. H. Adams, of Spencerville, had a very narrow escape from instant death late yesterday afternoon when the motorcycle which he was riding crashed into a Western Ohio car at the intersection of Woodlawn avenue and the Shawnee road. The motorcycle was completely wrecked, having been thrown by the force of the collision directly under the rear trucks of the rapidly moving car. By some happy whim of fate the motorcycle was thrown in one direction and the rider in the other, so that while the one was demolished beneath the wheels, the other was thrown clear of danger, suffering only the bruises expected from a fall of that kind.

The motorcycle was very new, having been purchased by the Spencerville man only the day before. He had come to Lima for that purpose, and had decided which one of the many on the market he wanted. He finally decided, and after taking several rides with the demonstrating mechanic, he felt able to ride alone.

He was on this homeward journey on the new motorcycle when the trouble came. He approached the cemetery corner, where the driver from the north must cross the tracks of the Western Ohio before reaching the Shawnee road. The view up this track to the west is obscured by a green house which stands on the corner. Adams was unaware of the approach of the car. He struck in the middle, and the machine was thrown beneath. The escape of the man was wonderful.

JUNIOR PLAY BIG SUCCESS

The Young Thespians Score Highly in Production Last Evening.

ROSE O' PLYMOUTH SUBJECT PRESENTED

Will Be Repeated This Evening in All Its Good Qualities.

The clever little play, "The Rose O' Plymouth Town" was staged last evening at the Lima High school auditorium, by the Junior class of the High school. The characters were eminently satisfactory and the audience manifested its approval and appreciation by generous applause.

The play is laid in the early days of the colonies and the colonial garb, the gray cap, throat kerchief and apron, was worn by the girls. Their demure ways, quaint costumes

and language as used in this early period, gave added zest to the performance.

The leading feminine role was played by Miss Lillian Beall, the pretty and accomplished young daughter of Mr. and Mrs. John W. Beall. The work back of the footlights is not new to Miss Beall for upon several occasions she has appeared before Lima audiences and has always acquitted herself well. She did so especially on last evening, taking the part of Rose.

Miss Helen Spannager, as Aunt Revolute Story, a worldly character who had come to the colony to spend her declining days with the captain and his wife, who were nephew and niece, gave well-rounded characterization to the play. The aunt is sorely beset and rallied at fate and the dull monotony of colonial life.

The leading male role was taken by Glenn Center, as Miles Standish, the captain of the new settlement and who wore the early colonial costume of much grandeur. The role of the hero, who divided honors with Mr. Ouster, was taken by Frank Cook. Others adding to the interpretation of the charming story were Paul Simpson as Garrett Foster, Harold Hildreth as John Margeson, Miss Miriam Sullivan as Miriam Chillingier and Miss Helen McDonel as Barbara, the wife of Miles Standish.

Too much credit can not be given Misses Mary M. Jones and Jean Stoner, who trained the young Thespians. Allan Smith was stage manager and John T. Cotner looked after the business management.

"The Rose O' Plymouth Town" will be repeated this evening, in all its satisfying qualities and the audience in attendance, will no doubt be larger than that which saw the play on last evening.

Coughs and Consumption Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by H. F. Vorkamp.

CUTE LITTLE BOMB FOUND BY POLICE ON BANK DOORSTEP.

Cardiff, Wales, April 25 — "Votes for Women" R. I. P. were the words painted on a bomb found this morning by a patrolman on the doorstep of Lloyd's bank in this city. The fuse attached to the bomb was burning when it was discovered and was pluckily seized and extinguished by the policeman.

Sour Stomach. This is a mild form of indigestion. Eat slowly, masticate your food thoroughly and take one of Chamberlain's Tablets just after supper and it may be avoided. For sale by all dealers.

OHIO FARMERS LOSE HEAVILY IN FLOODS

Reports received by Ohio Department of Agriculture, from 1630 correspondents, representing 1,000 townships, outside of cities, indicate that farmers have suffered a loss approximating \$16,000,000 from recent winds and flood.

An impression went out that only cities and towns were hit by the recent calamity. Farmers sustained loss as well.

Drift wood and debris in many places will cause annoyance and expense. Many wind pumps were blown down and roofs removed.

The Loss.
From high winds previous to flood rains... \$1,228,000
Flood damage to buildings, fences, roads and live stock... 7,000,000
Soil washing... 2,300,000
Corn in shock... 320,000
Drift wood and debris... 350,000
In places the drift is worth removal.

Soil washing occurred more generally in hill counties. High winds did most damage in northern and north-western Ohio.

Crop Loss.
Wheat in places suffered no loss, but the average loss for Ohio, is estimated at 7 per cent. 1913 crop, based on acreage sown 1912. However the wheat prospect for coming harvest is optimistic.

Growing condition is better at this time than corresponding date 1912. Acreage now in ground exceeds acreage harvested 1912 by 600,000 acres.

In baskets the 1912 harvest ought to exceed the 1912 harvest by 15,000,000, if no handicap is placed between now and threshing time.

Oats already sown suffered severely in places, also by delay in seeding. The crop may be impaired to the extent of 2 per cent. Rye, 1913, depressed 5 per cent. Comparative large acreage in ground. Corn crop ahead, suffers only from slight delay in plowing, and washout of soil. Loss estimated between one and two per cent. only.

Plant trees and improve water ways.

Cured of Chronic Constipation. "For twenty-one years I suffered with chronic constipation," says C. W. Robinson, of Cordova, S. C. "In May, 1908, it had assumed a more serious form, resulting in indigestion, piles and neurasthenia. Life seemed a burden to me. Two famous physicians and one specialist with all their drastic drugage failed to help me. A friend advised me to give Chamberlain's Tablets a trial, which I did, and am pleased to say two bottles of them cured me." For sale by all dealers.

CARD OF THANKS.

We desire to thank any and all who in any way assisted us during our illness and death of our loved one, Mrs. Nellie Williams Warren. We appreciate the things done and said to us and when helped to cheer our hearts in the time of our sad bereavement. Indeed, we are most grateful.

Lee Warren, The Family.

Why He Was Late.
"What made you so late?"
"I met Smithson."
"Well, that is no reason why you should be an hour late getting home to supper."
"I know, but I asked him how he

was feeling, and he insisted on telling me about his stomach trouble."
"Did you tell him to take Chamberlain's Tablets?"
"Sure, that is what he needs." For sale by all dealers.

HONOR GIVEN TO LIMA MAN

M. L. Frazier Elected to be Head Banker of the W. O. W.

STATE CONVENTION THOROUGH SUCCESS

Toledo Chosen for Convention Two Years Hence.

M. L. Frazier, of this city, was signally honored at the state convention of the Woodmen of the World which convened in Portsmouth on Tuesday of this week. Mr. Frazier was elected to the office of head banker of the state organization. This is no slight dignity for this lodge to confer upon any one of its brothers, and the selection of Mr. Frazier not alone does credit to the man, but gives conspicuous tribute to Lima.

The convention which has just adjourned, was the most successful that this lodge has ever experienced. Postponed two weeks on account of the high water and the destruction of the just passed flood, the meetings were even better attended than usual. There were two hundred and seventy-one registered delegates present. From the local organizations M. L. Frazier, Frank Page, J. E. Shaw, and W. O. McClure were delegates from the Allen Camp No. 84, W. O. W., and J. E. Riley was delegate from Lima Camp No. 137, W. O. W.

The next state convention will meet on the second Tuesday in April, 1925, in Toledo, Ohio. The next national convention will meet in Jacksonville, Fla., on the second Tuesday in June, this year.

The following is a complete list of the officers of the state organization, selected in the recent convention.

Past head council, H. G. Brodbeck, Columbus; head council, J. H. Rogge, Jr., Cincinnati; head advisor, O. E. Williamson, Dayton, head clerk, Gus Hessevaunear, Columbus; head banker, M. L. Frazier, Lima, head escort, O. O. Strymyer, Bellevue, head watchman, George Gebel, Bowling Green, head sentry, J. P. Cunningham, Findlay; head managers, C. F. Bruce, Canton, A. B. Wagoner, Toledo, O. R. Boyce, St. Marys, J. P. Becker, Cleveland, H. J. Morrison, Fremont, delegates to the national convention, George Ditty, Portsmouth, H. B. Garnett, Cleveland, W. H. Dauley, Columbus Alternates, J. R. Kelly, Toledo, Albert Lang, Cincinnati, Henry Stropp, Columbus.

PRESLEY RAMER DIED LAST NIGHT

Died at the District Hospital a Victim of the White Plague.

Surrendering to the inevitable, Presley Ramer succumbed to pulmonary tuberculosis, the end coming shortly after 8 o'clock last night. For the past three months he has been a patient at the district tuberculosis hospital in Shawnee township, but relief was not to be found, and he passed away quietly last evening. The deceased was 43 years of age at the time of death. He was a native of Ohio, having been born at Dunkirk, in Hardin county. He has made Lima his home for many years, where he has been employed as a teamster. He leaves behind his wife and seven children, Arb Ramer, Roy Ramer, Maud Ramer, Esther Ramer, Grace Ramer, Ruth Ramer and Doris Ramer, and several brothers and sisters in various places throughout the state.

The remains will be taken to the old home at Dunkirk for burial. The funeral party will leave here tomorrow morning at 7 o'clock over the Pennsy. The services will be held in Dunkirk, and interment will follow in the cemetery there.

Don't be surprised if you have a Just rub the affected parts freely with Chamberlain's Liniment and it will soon disappear. Sold by all druggists.

NINETY-ONE MILE STONES

Passed by William S. Cremeans, Who Celebrates Anniversary.

STRONG ADVOCATE OF MODERATION

Rules of Health Must be Observed to Gain Ripe Old Age.

If you would live to a ripe old age, be temperate was the keynote of the advice sounded by William S. Cremeans, said to be Lima's oldest citizen, who celebrated his 91st birthday at his home at 638 Haller street, this morning.

A newspaperman who called at the neat little cottage this morning was met by Miss Martha Cremeans, sister of Cremeans. The newspaperman explained he had come to ask Mr. Cremeans how he did it. Several grand children, with here and there a great grand child to break the monotony, were adding in the birthday festivities.

When asked what his rule for longevity was Mr. Cremeans said that he had never observed any rule other than that of temperance.

"The people of this day eat too much, talk too much, sleep too much and think too little. I'm not a teetotaler and whenever I feel like it, I smoke. I'm just careful enough not to feel like it too often."

Mr. Cremeans spent his 91st birthday much the same as every other day. In the early morning he took a short walk, then came home to read the paper. He expects to live for several years yet.

His sister shares his opinion. As she let the newspaperman out she said:

"He'll live to be a hundred."

TO PALE THIN PEOPLE.

Melville Drug Company Offers to Pay for Sanoose If It Does Not Make Thin People Fat.

Pale, thin people are simply suffering from want of nourishment. They may eat enough, but their food is not properly digested and does them no good.

Samosé, the remarkable flesh forming food, should be used by all who are pale, weak and thin. It mingles with the food and aids assimilation so that when taken for a short time nature will soon assert her normal powers and the food that is eaten will give strength and good flesh.

The woman who longs for rosy cheeks and the plumpness of beauty should use Samosé. The man who wants to be strong and well and gain health and good flesh will find his desires accomplished by Samosé.

Such remarkable results have followed the use of Samosé that the Melville Drug Company is willing to pay for the treatment if it does not give the desired results. They make this offer generally and want all who are thin, weak and out of health to get a box of Samosé from them on those terms.

SPOKE FILLS GUILTY.

Cleveland, O., April 25.—Peter F. Seiss, 30-a-month clerk at the Cleveland Furnace Company, pleaded guilty when arraigned in Judge Vickery's court here today on charges of embezzlement and grand larceny. Seiss is specifically charged with stealing \$6,515.65 worth of brass, but confessions to claims that he got away with \$20,000 worth of the metal. Sentence was delayed.

TO LICENSE MILK DEALERS

Board of Health Took Up the Cause at Their Regular Meeting.

SANITATION TAKING A BACK SEAT TODAY

Feel Too Much Attention is Being Devoted to Beauty.

The regular monthly meeting of the city board of health was held last evening, with Mr. or Shook presiding. The meeting was one of much importance, as the discussions and the proposals that were made during the course of the evening were most pertinent at this time.

Probably the most important work was the discussion of the proposition to license all of the milk dealers in the city and the passage of an ordinance that would not only put merchants of this product under surveillance but would govern by rules that would permit of no misinterpretation or non observance.

Dr. A. L. Jones, health officer of the city, told the board that he had spent a deal of time lately in studying the problem of milk sup-

ply, and would devote all his energies to the preparation of a proper ordinance. This he said that he would do, working in conjunction with the city solicitor. This ordinance will require all licensed dealers to supply to their customers milk that comes up to a certain standard in the test that will be given it. These tests will be given by the city chemist. It will further be required that all milk be delivered in bottles, have in very large quantities, that the caps of these bear the name of the dealer. That in the hot weather of the summer months the dealer be compelled to deliver the milk inside the house, and be prohibited from setting it on the outside porch exposed to the bright rays of the sun.

A number of remarks were made in the meeting about the recent incident that has been given to projects for increasing the beauty of the city, and the general trend of the ambitions toward the satisfaction of the dictates of pride. This board condemned the devotion to this motive when it obscured the desire for work and improvement along sanitary lines. The matter of the improvement of Hog Creek was brought up herewith, and emphasis was laid on the phase of the improvement that would particularly bring about better sanitation.

The death knell of the roller towels and public drinking cups was sounded in the proposal last night to supply all of the authorities whose positions make them responsible for public places with explicit instructions about the prohibition of these breeders of disease. Copies of the new law covering these things, along with all of the state literature regarding the law, will be sent to all concerned. The enforcement of the requirements of said law will then be carried on with great rigidity.

The health officer in his report to the board pointed out that there were 20 cases of contagion the first of April, 46 new during the month,

and 29 at the close. Forty cases of measles, three of scarlet fever, one of diphtheria and two of chicken-pox.

OHIO G. A. R. ENCAMPMENT.

Washington C. H. is Preparing a Royal Welcome for Veterans June 17-20.

Many veterans of the civil war and their friends living in this country are interested in the approaching G. A. R. state encampment which will be held in Washington C. H., Fayette county, Ohio, June 17, 18, 19 and 20, 1913, where the state encampment was so royally entertained eight years ago.

The general committee on arrangements and the various local committees are making elaborate preparations to entertain the visiting thousands in a way befitting the occasion. Many distinguished orators will deliver addresses. There will be gorgeous parades of various kinds, and the occasion promises to be one long to be remembered. The four railroads reaching Washington C. H., which branch out in eight different directions, are arranging to handle the big crowds. As the civil war veterans of Ohio are rapidly passing away, the coming encampment will doubtless be the last of the really large state grand army gatherings.

"AT AN AFTERNOON CALL," said a popular society woman, "the subject of woman's health was under discussion, and to my amazement three out of four women in the room, who had happened to call at the same time, had found health in Lydia E. Pinkham's Vegetable Compound."

Thousands of women in America owe their health and happiness to the marvelous power of this famous medicine, which is made from roots and herbs, nature's remedy for woman's ills.

LIMA MOOSE LODGE GETS DISTINCTION

Rarely does a Deputy Director have the pleasure and distinction of having his lodge instituted by a Supreme Representative, yet Mr. Levi X. Jacobs of Van Wert, O., through whose efforts, Van Wert lodge was organized, succeeded in having Supreme Instructor George H. Hamilton, of Washington, D. C., ordered into Van Wert, April 30 to institute the Moose lodge there.

Out of one half dozen degree teams, anxious to accompany the supreme instructor, Lima team was chosen and only after the supreme instructor had witnessed the team in an initiation and drill. Lima lodge has reason to be proud of her team and its very efficient captain. About 50 of the most prominent men of Lima, who are members of the order will accompany the team on the trip.

The team will give an exhibition drill on the Public Square next Tuesday evening at 8 o'clock.
